Strand Leko® LED Profile- the modern successor to the iconic Strand Leko that inspired generations of designers, this profile fixture is available in full color which uses a Red, Green, Blue, Amber, Lime & Cyan color mixing system for the mixable color spectrum. To compliment the Full Color version two white output versions, a warm tunable white (2700 K to 4500 K), and cold tunable white (4000 K to 7000 K) varieties, both of which offer a consistent CRI exceeding >94 CRI across all color temperatures. The entire Leko family offer, far more than just in innovated color control, each of the fixtures utilizes new fan control technically and functions ensures these new high powered LED fixtures are suitable for use in the quietest of applications. To simplify installations, the Leko LED uses the SPX Smart Gate found on legacy SPX and PL4 fixtures and is compatible with existing SPX lenses, optional universal lens tube are also available for use with legacy Strand LEKO lens tube and other common lens systems.

- High output midsize LED theatrical luminaires - modern fixtures with quality you can trust.
- High CRI RGBALC Color System with SmartColor Control - wide range of vivid color options that can be programmed using CYM.
- Tunable white with >94 CRI - adjust color temperature without compromising output or quality of light.
- Independent color mixing and temperature controls - match color palette to color temperature without manual adjustment for simpler programming.
- Quiet operation with variable fan control - perfect for use in quiet environments.
- Adjustable frequency to exceed camera frame rates - camera-friendly fixtures for IMAG, event recordings, or TV and film applications.
